## PRESIDENT RAPS FARM PRICE FIXING

### METHOD WOULD LEAD TO DISASTER CHIEF EXECUTIVE CLAIMS

Urges Marketing As  
Most Promising Re-  
lief Plan

WASHINGTON, Nov. 17.—Any attempt at price fixing or putting the government in business would be fatal to the independence of the farmer and in the end would bring disaster, President Coolidge said last night in an address before the sixty-second annual convention of the grange here.

The president characterized the aid being given agriculture by the government as unsurpassed in world history and pointed to co-operative marketing as the most promising method of solving the problems of the American farmer.

Tax reduction virtually has relieved the farmer of federal taxes, Mr. Coolidge said.

"This movement toward co-operative marketing still is in its infancy. It has sometimes failed through lack of management but it is sound in theory and when conducted in business like way offers the most promising solution to the great marketing problems," the president said.

"It avoids any attempt at price fixing or putting the government in business, both of which would be fatal to the independence of the farmer and in the end would bring disaster."

It likewise avoids the hazardous proposal of a subsidy, which the American people would never be willing to pay for any length of time. It rests on the sound merchandising principle of taking the product and disposing of it in the most advantageous way that shrewd and orderly marketing affords. Such further assistance as is necessary to render this effort more effective through setting up a board for its administration, supplied with sufficient funds to demonstrate its soundness in its experimental stage, may well be provided by the national government."

At another point, Mr. Coolidge said one of the greatest handicaps of agriculture was temporary over-production.

Mr. Coolidge emphasized the definite assurance of an increased gross income for agriculture because of federal aid. In reciting examples of this aid he mentioned governmental supervision of grain exchanges and packing industries; adoption of standards for cotton; a recent \$4,000,000 appropriation for farm research; the law setting up in the department of agriculture a department for co-operative marketing; and establishment of extensive radio and wire service for supplying vital market information.

### HEALTH DEPARTMENT ASKS \$1,366,559

COLUMBUS, Nov. 17.—State Health Director John E. Monger has set up budget calling for \$1,366,559 for the next two years to run his department.

He asks \$20,000 a year for work in immunizing against diphtheria, and would spend \$10,000 a year in teaching mouth hygiene in co-operation with the Ohio State Dental Association. He would also spend \$7,500 in the interest of better milk.

In order to keep high grade men in state service, Dr. Monger asks salary increases for the assistant health director, chief of the division of communicable diseases, chief of laboratories, and chief of the division of vital statistics.

### MARSH LAND FIRE THREATENS CROPS

NORWALK, O., Nov. 17.—Only a heavy rain or a blanket of snow can save the fertile farm land of George Dawson near here, the owner said today after southerly winds of the past week drove a smouldering fire in the Willard marsh lands northward a mile or more.

The fire has reached the Dawson property and at times, whipped by brisk winds, flames speed over the ground's surface as fast as a man can run.

Dawson is trying to save a large corn crop by using a husking machine.

The dry, inflammable peat soil is burning to a depth of two or three feet over an area of at least a square mile.

### HUNTER WOUNDED

IRONTON, Nov. 7.—Frank McFee of Ironton was shot perhaps fatally while hunting near here yesterday.

### Arnold Rothstein Murder Rivals Fiction

NEW YORK, Nov. 17.—For several reasons playwrights have been writing themselves out to produce the great mystery play for Broadway only to have real life drop a plot onto that gay highway which has all the writers' efforts whacked.

This intriguing mystery is the murder of Arnold Rothstein.

It will be two weeks tomorrow since Rothstein walked from the Park Central Hotel, holding his hand over a wound and asking to be taken to a hospital. In that two weeks the amazing developments

that have been produced include:

1—The government charged Arnold Rothstein was a member of an international dope syndicate. Government operatives opened a safety deposit box yesterday and claimed to find evidence to support this charge.

2—An attorney for the estate of Nicky Arnstein, who staged a \$10,000,000 robbery in Wall Street, claimed that from \$4,000,000 to \$5,000,000 of the stolen bonds would be found in Rothstein's safe.

3—Police have questioned 150 suspects without finding any clue

to who shot the mysterious "Ar."

4—Mayor James J. Walker has given the police until Monday morning to produce results and after that he will take charge in an upstanding manner.

5—Rothstein's safety deposit vault entered last night is reported to have yielded something like \$100,000 worth of jewels in addition to many valuable securities.

6—Rothstein's will, signed on his death bed, was charged to be a fraud. This will gave one-sixth of the estate—variously estimated from one to ten million dollars—

to a former Follies girl. And the strangest thing about the whole situation is that no one seems to have the slightest idea who and why of Arnold Rothstein—one of the best known and least known about figures along Broadway.

Police have hopes something will happen today. There was a chance that "Tough Willie" McCabe might know the men who gathered at the now famous poker game at Jimmy Meehan's house at which Rothstein lost upwards of \$300,000 and gave I. O. U.'s. Then too they

figured McCabe might know who the men were who called Rothstein from Lindy's two weeks ago, invited him to a certain room in the Park Central. That was the last gathering that Rothstein ever attended for he was shot either in that room or in the hallway outside.

But "Tough Willie," who is known up and down the Forties of Broadway, has been missing ever since Rothstein was shot. There are those who say McCabe has been in the city all the time, but at least he never has been arrested.

### CONDUCTS PROBE

### TWELVE LOSE LIVES IN GREAT BRITAIN; DAMAGE TOLL HEAVY

Thirteen Die When Build-  
ings Fall In  
Coblenz

LONDON, Nov. 17.—The most severe gales that have struck Great Britain and the English Channel in upwards of a decade, today had taken a toll of at least twelve lives in Great Britain alone, injured several hundred and had done damage estimated at several hundred thousand dollars.

The winds reached a velocity of 120 miles an hour in many places while high winds, ranging from eighty miles an hour and upward, were reported from all points close to the coast.

It was the worst storm London had seen in twelve years. Pedestrians were blown down on the street. Motor vehicles were tossed about. Windows were caved in and trees snapped.

For the first time in history the ferries on Bristol Harbor were stopped while traffic on the English Channel was at a standstill. The girl's voice rasped. The young man put on a new new.

"Don't take it too hard. . . . wise thing. . . . save us misery."

He listened carefully until the record ended; then he took it off the machine and calmly smashed it to bits.

The girl received the pieces the next day, and with them a note.

"The record is broken," it said, "but my heart is not."

U. S. Attorney Charles H. Tuttle, of New York City, is conducting the probe to fix the responsibility for the sinking of the Lamport and Holt liner *Vestris*, which founded off the Virginia capes. Passengers have testified that the officers and crew bungled the rescue work, wasting lives.

### PRESIDENT-ELECT HOOVER ALL PACKED FOR SOUTHERN TRIP

Elaborate Wardrobe In  
Contrast With Usual  
Garments.

Only three of the six lines to Brussels were operating.

BRUSSELS, Nov. 17.—Several persons were injured by falling trees as the gale struck Brussels. The high winds were general throughout the nation.

PALO ALTO, Calif., Nov. 17.—President-Elect Hoover was ready today to don the top hat of diplomacy and smile his timid, boyish, smile of friendly greeting to the Latin American neighbors to the week.

His smile, principally, will express his friendliness—he does not speak the language of those he will visit. Interpreters will convey, in Spanish, the meaning of the speeches he will make. They will be few and brief.

Hoover's outfit for this South American trip constitutes probably the most cloining he ever possessed. He is a man of simple habits. His elaborate layout is in striking contrast to the few clothes he carried with him when he left here with his bride years ago for a job in China.

A khaki shirt, heavy pants and rugged boots formed the principal costume in those engineering days.

His packing is over, he has the passport which he insisted upon procuring, though no one will question his right to enter any country he visits, and the state department has informed all those countries to admit all members of his party.

Today, he devoted himself to relaxation. He will attend the Stanford-Washington football game in the afternoon and afterward will receive a group of California political leaders, who will visit him to wish him a pleasant voyage and bid him farewell.

The president-elect and his party will leave here tomorrow night at 7:30 in a special seven-car train. Hoover, his wife and his son, Allan, will travel in the private car "Sunset."

The special train is due to arrive at San Pedro, the port of Los Angeles and the port of embarkation, at 9:30 Monday morning. The party will be taken out to the battleship Maryland on speed boats. The Maryland will get under steam as soon as all are aboard.

Inistent invitations continue to come here. The latest is from Bolivia.

The first scheduled stop on the tentative itinerary is at Corinto, Nicaragua, with other stops at Balboa, in the Canal Zone, Lima, Peru, and at Valparaiso. Hoover may visit Colombia, Ecuador and Bolivia. From Valparaiso the president-elect will go to the capital of Chile, Santiago, thence across the Andes to Buenos Aires, Argentina, then to Montevideo, Uruguay, and northward to Rio de Janeiro.

The president-elect virtually has decided to spend the winter near Miami, Florida, remaining there until just before inauguration, other places still are under consideration but this now seems most likely. He will arrive there early in January, after a visit to Mexico City and Havana, Cuba.

BETWEEN \$750,000 AND \$850,000 is expected to be expended on the structure proper. This also will include the cost of a pipe organ.

The new auditorium has been under consideration for six years.

KILLED BY TRAIN

BELLEFONTAINE, Nov. 17.—William N. Smith, 76, is dead here from injuries received when a Big Four train struck him.

NEW OBERLIN, O., Nov. 17.—The board of trustees of Oberlin College took steps today toward the building of a new \$800,000 auditorium for the college. The board authorized immediate work on the preliminary drawings for the new auditorium and an order has been placed with Cass Gilbert of New York City to draw up plans for the structure.

College authorities announced today that the building is expected to seat between 2,500 and 3,000 persons.

There is \$1,015,000 available for the auditorium, left by Charles M. Hall, Oberlin graduate who discovered a process whereby aluminum could be made commercially.

The auditorium is to be built as a memorial to Hall's mother, Sophronia Brooks Hall, Chas. M. Hall died in Florida in 1914.

Between \$750,000 and \$850,000 is expected to be expended on the structure proper. This also will include the cost of a pipe organ.

The new auditorium has been under consideration for six years.

OBERLIN TO BUILD  
NEW AUDITORIUM

OBERLIN, O., Nov. 17.—The board of trustees of Oberlin College took steps today toward the building of a new \$800,000 auditorium for the college. The board authorized immediate work on the preliminary drawings for the new auditorium and an order has been placed with Cass Gilbert of New York City to draw up plans for the structure.

College authorities announced today that the building is expected to seat between 2,500 and 3,000 persons.

KILLED BY TRAIN

BELLEFONTAINE, Nov. 17.—William N. Smith, 76, is dead here from injuries received when a Big Four train struck him.

NEW PHILADELPHIA, O., Nov. 17.—Goldie Norrie has decided to return to his wife and five children in Italy rather than stay in this country and spend the next year working out a \$500 fine in the Stark County workhouse. He was given his choice of the two moves by Mayor J. S. Hare after he pleaded guilty to a charge of manufacturing intoxicating liquor.

MILDRED LAMB

"Let's Live," a brand-new serial story from the pen of Mildred Lamb, famed writer of newspaper serials, will start Monday in The Evening Gazette and Tuesday in The Morning Gazette. In the following story Miss Lamb tells of the experiences that led her to the plot of this thoroughly human and modern story.

Everyone has so much more leisure than he ever had before in the whole history of the world, and it has come upon him suddenly, that he hasn't learned how to spend it wisely.

This modern age, with its swift-moving tempo, reacts in different ways on different groups, and in "Let's Live!" I've tried to show the reactions on a young and typical group, and how a young girl, with a different training, has to adjust herself to her environment.

With Byrd, the heroine of my story, it becomes the question: Will she change her life to suit the life about her, or will she mold her environment to her ideals?

"Let's Live!" by Mildred Lamb, will start in The Gazette beginning Monday. Be sure and read this dramatic story.

### RECOMMEND FIVE FOR JUDGESHIP

CLEVELAND, O., Nov. 17.—President Calvin Coolidge, Attorney General John G. Sargent and United States Senators Theodore Burton and Simeon D. Fess were to receive today the names of five Cleveland attorneys recommended by the executive committee of the Cleveland Bar Association for the federal judgeship vacated by the death of D. C. Westenhaver.

You have noticed a form of indulgence toward children today never observed before, for the old order has changed.

A bookkeeper was working late at night, and his employer said: "Jim, you seem to work harder than you get older. What about that son of yours?"

Jim looked up momentarily. "Well, you see, I'm working his way through college."

The idea for my story, "Let's Live!" came to me from watching young married couples. It is natural that they are instinctively driven to possess all the outward symbols of success, and they imitate the neighbors in their street who has just bought a fur coat for his wife, a car, and is spending his vacation at the seashore.

It has become an obsession with them to acquire more and more of this world's goods. Of course, in this commercially successful age, all success is being gradually but inevitably measured by financial rewards, and some actual tangible thing is the only measure of merit in our minds today.

And imitation is a growing factor, too, thanks to the terrific pressure put upon us by our efficient methods of advertising. We begin to want the thing someone tells us is good for us.

I see young people all around, craving things and never satisfied. Excitement, for example. Some folks have to go somewhere every night to dinner, or dance, or just a ride into the country. Other people are constantly buying things they can't afford, so they are constantly quarreling over the money she spends for clothes or

### SOUTH DAKOTA IS STRUCK BY QUAKES

DEADWOOD, S. D., Nov. 17.—Several severe earth tremors here and in other Black Hills towns last night did no damage, a check up today showed.

The quakes lasted nearly a minute. Lead, Rapid City and several other places reported the tremors.

SHOOT'S MAN FOUND  
TALKING TO WIFE

COLUMBUS, O., Nov. 17.—Police today were holding Ray Melcher, restaurant owner, for investigation in the shooting of Edward Gerrish, 19, in front of Melcher's home.

Gerrish is in Mt. Carmel Hospital with a bullet wound in his right leg which Melcher admitted he inflicted when he saw the man talking to his wife, Mrs. Bessie Melcher, 29. His condition is not serious.

The woman said she was a "mystic healer" and had been

sent to aid Mrs. Lightfoot.

## EXECUTE SIXTEEN PIRATES FOR MURDER

VOLUNTEER GIFT  
A Xenia Boy Scout, reporting  
for work at Community Chest  
headquarters in City Hall Saturday  
to distribute folders to  
Xenia homes, offered a contribution  
of \$5 for the campaign.

The lad explained that the gift was from his father but that his father instructed him not to give the name. The volunteer contribution this early cheered chest workers just as have other volunteer contributions that have already started the ball rolling.

The sum total of yesterday's interesting session was:

That on Monday morning a "CQ" (or ships stand by) call was sent out between 8 and 9 o'clock.

That the life boats began filling with water as soon as they were lowered.

That at least three radiograms passed between Captain Carey and officials of Lampert and Holt before the ship finally submerged.

That an SOS call was sent out sometime after 9 a.m. Monday, but neither the second nor third radio operator could recall the exact time.

The four witnesses yesterday—who told of that tragedy which took 114 lives—were Charles Verchere, an 18-year-old radio operator who flashed the SOS, was stripped of his hero role by two mates. The shipmates said that O'Loughlin, instead of waiting at his post and going down with the vessel, had left the little radio shack some thirty or forty-five minutes before the big vessel finally submerged.

Previously it had been assumed that O'Loughlin, like Captain Carey, had chosen death at sea.

**THE COMMUNITY CHEST IS A BUSINESS INSTITUTION ITSELF.** Its officers and directors are men and women in this city—your community—who are giving of their time and thought without any financial returns to them.

**THE COMMUNITY CHEST SAVES TIME.** By combining all solicitations (previously carried on separately in Xenia) into one annual appeal, it affords everyone an opportunity to give ONCE for all.

**THE COMMUNITY CHEST INSURES ECONOMY.** Each member agency is required to submit a budget and expenditures from this budget are reviewed by the Community Chest Budget Committee (already two of the Social Welfare Agencies in Xenia have arranged for a consolidation so as to decrease the overhead cost of operation).

**THE COMMUNITY CHEST INCREASES EFFICIENCY.** By eliminating duplication and co-ordinating related services, it will establish higher standards of social service.

**THE COMMUNITY CHEST PLAN IS EQUITABLE.** It spreads the burden of supporting charitable work upon the community at large. Everybody should help.

**THE COMMUNITY CHEST IS A PRACTICAL PLAN** which has been tried so successfully in many other communities. For these, if for no other reasons, The Xenia Community Chest deserves your whole-hearted support.

## WITTENBERG PROFESSOR IN P.T.A. DINNER PROGRAM.

Dr. Frederick Kruger, Wittenberg College, professor of political science and sociology, will be the principal speaker at the P.T.A. "chain dinner" in honor of Central High School faculty, Monday evening.

A trio from "The Seall School of Music," including piano, violin and vocal, will give a program preceding the talk. Mrs. Adolph Moser is chairman of the program and Mrs. P. C. Bankerd is social committee chairman.

Mr. William Hugh Miller, music instructor in the city schools, will lead the community singing and Mrs. Charles Adair will introduce the teachers.

Dinner will be served in the cafeteria at 6:30 and will be followed by the program in the auditorium. All patrons are urged to attend and bring a covered dish, silver and china.

Mr. William Clemans, student at Miami University, who is spending the week end at his home here, has as his guest, his roommate, Mr. Charles Sanford, Stryker, O.

Miss Chrystel Thomas, student at Miami University, is spending the week end at her home, south of Xenia.

Miss Imogene Dean, W. Market St., student at Miami University, will spend the week end at her home here and will have as her guests, her roommate, Miss Ruth Staley and Miss Staley's parents, Mr. and Mrs. L. A. Staley, Cincinnati, O., also a student at Miami. They attended the football game between Miami and Wittenberg at Springfield, Saturday.

The Xenia Woman's Music Club will meet Monday afternoon at the home of Mrs. Mary M. Meredith, N. King St., when tributes will be paid to the memory of Schubert. Mrs. Howard Little will be the leader and the program will be in charge of the third division.

Friends may call at the Nagley Funeral Parlors after 3 p.m., Sunday.

Mr. Edward Higgins, student at Miami University, is spending the week end at his home here.

Mr. and Mrs. Clarence Stephen, Detroit, Mich., will spend the week end in Xenia, the guests of Dr. and Mrs. C. E. Wilkin. Mrs. O. J. Lowe is entertaining Saturday evening with dinner and cards in their home.

A wedding anniversary and surprise party was celebrated Friday evening at the home of Mr. and Mrs. William Simms, 786 Greenlawn Ave., Dayton. Dinner was served the guests and a social time followed. Those present were: Mr. and Mrs. John Hurley and family, Mr. and Mrs. Asa Hurley and family, Mr. and Mrs. Earl Quigley and family, Mr. and Mrs. Raymond Simms and family, Mr. and Mrs. Clem Penewitt, Mr. Ed. Penewitt, Mrs. Laura Hurley and Mr. Leon C. Simms.

Penewitt, Mrs. Laura Hurley and Mr. Leon C. Simms.

Some may say that these recollections of Iowa are only the illusions of forty years after, but I know better—for I have been back and checked them up. I was told that when I went back everything would have shrunk up and become small and ordinary.

For instance, there was Cook's Hill—that great long hill where, on winter nights, we slid down at terrific speeds with our tummies tight to home-made sleds. I've seen it several times since; it's a good hill and except for the older method of thawing out frozen toes with ice water the operation needs no modern improvement.

## HERBERT HOOVER TELLS STORY OF BOYHOOD DAYS

From an address made by Herbert Hoover before the Iowa Society.

I prefer to think of Iowa as I saw it through the eyes of a ten-year-old boy—and the eyes of all ten-year-old Iowa boys are or should be filled with the wonders of Iowa's streams and woods, of the mystery of growing crops. His days should be filled with adventure and great undertakings, with participation in good and comfortable things. I was taken farther west from Iowa when I was ten, to Oregon, and then to that final haven of Iowans—California—where I have clung ever since.

Some may say that these recollections of Iowa are only the illusions of forty years after, but I know better—for I have been back and checked them up. I was told that when I went back everything would have shrunk up and become small and ordinary.

For instance, there was Cook's Hill—that great long hill where, on winter nights, we slid down at terrific speeds with our tummies tight to home-made sleds. I've seen it several times since; it's a good hill and except for the older method of thawing out frozen toes with ice water the operation needs no modern improvement.

The Ole' Swimm'n' Hole

The swimming hole under the willows down by the railroad bridge is still operating efficiently, albeit modern mothers probably compel their youngsters to take a bath to get rid of clean and healthy mud when they come home. The hole still needs to be deepened, however. It is hard to keep from pounding the mud with your hands and feet when you shove off for that thirty feet of a cross-channel swim.

And there were the woods down the Burlington track. The denudation of our forest hasn't reached them even yet, and I know there are rabbits still being trapped in cracker boxes held open by a figure four at the behest of small boys at this very time. I suspect, however, that the conversationalists have invented some kind of a closed season before now.

One of the bitterest days of my life was in connection with a rabbit. Rabbits fresh from a figure-four trap early on a cold morning are wiggly rabbits, and in the lorgue.

Funeral services will be held Monday at 2 p.m. at the United Presbyterian Church in Cedarville, with burial in North Cemetery, Cedarville.

Friends may call at the Nagley Funeral Parlors after 3 p.m., Sunday.

## DEATH CLAIMS MRS. AMELIA A. WHITE, WIDOW OF MINISTER

Mrs. Amelia A. White passed away at the home of her son, the Rev. John P. White, D. D., 657 S. Detroit St., Saturday morning at 9:30 o'clock.

Mrs. White was the widow of the Rev. James White, D. D., who died seven years ago. She was born in Cambridge, O., and has made her home with her son several years, moving with them from Cedarville here a few years ago.

Surviving are one son, the Rev. John P. White, this city and one daughter, Mrs. E. K. Ream, Van Wert, three grandchildren and two great-grandchildren.

Funeral services will be held Monday at 2 p.m. at the United Presbyterian Church in Cedarville, with burial in North Cemetery, Cedarville.

Friends may call at the Nagley Funeral Parlors after 3 p.m., Sunday.

## FORMER RESIDENT DIES IN HOSPITAL

James Hill, 20, colored, second-year student at Wilberforce University, charged by federal authorities with a unique method of using the mails to defraud, was taken from the County Jail to Dayton by U. S. Deputy Marshal Carson Pratt Saturday.

It was expected that Hill would be arraigned in Dayton before U. S. Commissioner William A. Rogers late Saturday and that his bond and date for a preliminary hearing would be set at that time.

Hill is said to have admitted victimizing a number of patrons of the university and parents of students by posing as assistant treasurer of the institution. Under the name of "John Hill," he wrote letters to patrons for donations and to parents claiming their sons owed bills. Hill is said to have appropriated for his own use money derived from the scheme.

His arrest was brought about by means of a decoy letter on complaint of R. B. Hickman, Wilberforce postmaster.

## AGAIN ARRESTED

Alberta Elliott, Jamestown, whose case was continued after being fined \$50 and costs in the Clinton County Probate Court for the alleged theft of a coat, was arrested Thursday and returned to Wilmington by Deputy Sheriff Gus Miller. She was placed in the county jail in default of bond and non-payment of the assessment. She was taken into custody when she refused to appear in court.

## GIRL IS FOUND

Margaret Slater, 14, 225 Virginia Ave., Dayton, missing high school girl for whom a state-wide search was conducted following her disappearance from home October 14, was found in Cincinnati Saturday, police learned. Shortly after her disappearance, the search extended to Xenia when it became known that she spent two nights at different hotels here, registering under assumed names.

## REPUBLICANS FACE DEFICIT IN COUNTY; DEMOCRATS EVEN

The Greene County Republican of its campaign discloses forty contributions aggregating \$799.50. Executive Committee concluded its recent political campaign with a deficit amounting to \$139.94, while the Greene County Democratic Executive Committee, out exactly even on finances, according to expense accounts filed with R. E. Dunkel, clerk of the board of elections, by both committees Friday.

The expense statement filed by Karl R. Babb, treasurer of the Republican committee, on behalf

of the morning devotions. Mrs. Frank Hastings led in the noontide prayer. The theme of the second session was the mothers' and child welfare work for the organization.

The Rev. S. A. Stulce, evangelist at the Baptist Church, delivered the principal talk of the afternoon, praising the work of the organization.

Plans were made for the work among the soldiers and sailors during the holidays. To help carry on its work, the A. C. Terrell Union will hold a rummage sale next Friday and Saturday.

Music was furnished by Mrs. C. W. Puterbaugh. Ecclies from the state convention were given by Mrs. Amos Mendenhall, Spring Valley; Mrs. L. W. Linton, Bowersville, and Mrs. Lois Halder, Mrs. Roy Gordon and Mrs. Elizabeth Whittington, Xenia.

Mrs. Carrie Flatter, county president, told of plans for anti-clarification work in the schools. Mrs. Carrie Geyer told the organization that her father was the instigator of the use of unfermented wine in the communion service, which was later adopted by the churches.

T. H. Zell, chairman of the Xenia Community Chest Drive, urged members to support the campaign. Mrs. Pearl Wittermyer, county health nurse, was introduced and urged the body to cooperate in her work.

FALLS DOWN SHAFT

STEUBENVILLE, O., Nov. 17.—Miss Rose Sage, 21, of Hollidaysburg, Pa., clerk at the Bell and Steele Drug Store, was near death in Gill Hospital today from injuries received when she fell down the store's elevator shaft from the second floor to the basement.

W. H. Aufranc, field director of the Ohio Farm Bureau Federation for southwest Ohio addressed 200 members and friends of Xenia Twp. Farm Bureau at the assembly room in the Court House, Thursday evening. Mr. Aufranc pointed out the various services that the Farm Bureau is rendering and urged members to avail themselves of these services.

W. W. Anderson, president of the Greene County Farm Bureau, told of the activities of the County Service Co., saying that during the past year the largest amount of fertilizer, feed, coal and other commodities have been purchased through the Farm Bureau than has been known in the history of the organization. A. A. Conklin, manager of the Co-operative Livestock Shipping Association, reported receipts of hogs were exceeding all records and would probably exceed 100 decks this month.

J. R. Kimber introduced the new county agent, E. A. Drake, who spoke briefly of the township program of work, urging the co-operation of members in carrying out the various projects. Mrs. Elmer Hetsel, leader of the nutrition project in Xenia Twp., motorcycle policeman, on the Springfield and Xenia Pike.

BOND FORFEITED

Charged with speeding thirty-five miles an hour on E. Main St., Charles Dickens forfeited \$5 bond following his arrest Friday night by Peter Shagin, motorcycle policeman. The autoft forfeited the bond for failure to appear in court for arraignment at the appointed time.

ENTERTAINMENT

Entertainment consisting of readings were rendered by Mrs. J. B. Mason and vocal selections by Beam brothers were enjoyed. Refreshments were served following the meeting.

J. Weir Cooper, president of Xenia Twp. Farm Bureau presided at the meeting.

## KELLOGG TREATY IS FAVORED BY COUNTY W. C. T. U. AT MEET

A request that all W. C. T. U. organizations in the county send telegrams at the opening of the Kellogg Peace Treaty, was made by Mrs. L. W. Linton, Bowersville, chairman of the county peace department, at the Greene County W. C. T. U. Institute, First Baptist Church, Friday.

Mrs. J. H. Harris had charge of the morning devotions. Mrs. Frank Hastings led in the noontide prayer. The theme of the second session was the mothers' and child welfare work for the organization.

The Rev. S. A. Stulce, evangelist at the Baptist Church, delivered the principal talk of the afternoon, praising the work of the organization.

Plans were made for the work among the soldiers and sailors during the holidays. To help carry on its work, the A. C. Terrell Union will hold a rummage sale next Friday and Saturday.

Funeral Parlors after 3 p.m., Sunday.

## FORMER RESIDENT DIES IN HOSPITAL

Miss Margaret Mulcahey, 58, former Greene County resident, died at St. Elizabeth Hospital, Dayton, Saturday morning at 8 o'clock. Death followed an operation for gallstones performed last Thursday.

Miss Mulcahey was born in New Jersey, March 4, 1870. She resided near Jamestown for a number of years and during the last six months made her home in Dayton.

Her brother, John Mulcahey, was buried to death in a fire near Jamestown, last July 22. Surviving are one sister, Mrs. Hugh Mangan, near New Jasper.

The deceased was a member of St. Augustine Catholic Church, Jamestown. Funeral services will be held Tuesday morning but the time and place have not been arranged. The remains were taken to the Mangan home near New Jasper.

His arrest was brought about by means of a decoy letter on complaint of R. B. Hickman, Wilberforce postmaster.

Soon after he had acquired this higher learning on rabbits, he proceeded to instruct me to stand still in the cold snow and to hold up the rabbit by its hind feet while with his not over-sharp knife he proposed to puncture two holes between the sinews and back knee joints of the rabbit, through which holes he proposed to tie a string and thus arrive at complete security.

Upon the introduction of the operation the resistance of this rabbit was too much for me. I was not only blamed for its escape all the way home and for weeks afterwards, but continuously over the last forty years. I had thought sometimes that I would write the "Youth's Companion" and suggest they make sure that this method is altered. For I never see rabbit tracks across the snowy fields that I do not have a painful recollection of it all.

I mentioned the Burlington track. It was a wonderful place. The track was ballasted with glacial gravel where on industrial search you discovered gems of agate and fossil coral which could with infinite backaches be polished on the grindstone. Their fine points came out wonderfully when wet, and you had to lick them with your tongue before each exhibit. I suppose that engineering has long since destroyed this inspiration to young geologists by using mass production crushed rock.

A Campaign on Hoover's Youth

My earliest realization of the stir of national life was the torch parade in the Garfield campaign. On that occasion, I was not only allowed out that night, but I saw the lamps filled and lighted. There was no great need for urging voters in our village—there was a

Democrat in the village. He occasionally fell to the influence of H. Quor, therefore in the esteem of our group, he represented all the forces of evil.

At times he relapsed to goodness in the form of rations of a single gumbop to the small boys who did errands at his store. He also bought the old iron from which the financial resources were provided for firecrackers on the Fourth of July. He was, therefore, tolerated and he served well and efficiently as a moral and political lesson.

Iowa, through the eyes of a ten-year-old boy, is not all adventure or high living. Iowa in those years, was filled with days of school—and who does not remember with a glow that sweet-faced lady who, with infinite patience and kindness, drilled into us those foundations of all we know today? And they were days of chores and labor.

Iowa, through the eyes of a ten-year-old boy, is not all adventure or high living. Iowa in those years, was filled with days of school—and who does not remember with a glow that sweet-faced lady who, with infinite patience and kindness, drilled into us those foundations of all we know today? And they were days of chores and labor.

They bulled here in so short a period as seventy-five years a people who today enjoy the highest standard of living, the highest average intelligence, the highest average degree of education that has ever blessed a single commonwealth. There is no man or woman born of Iowa who is not proud of his native state.

But there are few scars that

people carry from the state of Iowa. The good Lord originally made it the richest stretch of agricultural land that ever blessed any one sovereign government. It was populated by the more adventurous and the more courageous, who fought their way along the ever-extending frontier.

They bulldozed here in so short a

## BIBLE THOUGHT FOR TODAY

A NEW SONG—Sing unto the Lord a new song, and his praises from the end of the earth, ye that go down to the sea, and all that is therein; the isles, and the inhabitants thereof.—Isa. 42:10.

## ANNEXING NEWFOUNDLAND

England's fear that the recent Newfoundland election may mean its annexation by the United States is beginning to cause some discussion.

A sufficient cause for Royal qualms was the Newfoundland Parliamentary Election a few days ago. Swept out of power was Conservative Prime Minister Frederick Alderidge; and swept in was Liberal Sir Richard Anderson Squires. The "Liberality" of Sir Richard is such that his principal henchman, Sir William Ford Coaker has said, as quoted in the current issue of *Time*.

"The true destiny of Newfoundland, with her fisheries, her forests, and her mineral wealth lies in the direction of the United States . . . The Dominion of Newfoundland is coming around to the idea of choosing to become one of the States . . . At present if a referendum were taken on this subject it would carry by a 75 per cent vote of the whole electorate, not because Newfoundland has forgotten the old flag, but because the tendency of the times is to consider dollars and cents first . . . Ten per cent of our population are continually going to and coming from the United States . . ."

The avowed policy of Sir Richard Squires is to bring to Newfoundland both Canadian and U. S. "dollars and cents," by fostering exploitation of the illimitable Labrador forests, whence comes most of the wood pulp for Canadian and U. S. news organs, magazines and books. Ostensibly Sir Richard is perfectly willing that the Labrador forests should be transferred to the Dominion of Canada—for a sufficiently stiff price. But the exceedingly harmonious relations existing between him and U. S. paper interests suggest that Sir Richard thinks a stiffer price can be got from Wall street. The talk about merging Newfoundland with the U. S. is probably a mere advance guard of publicity to prepare Newfoundlanders for U. S. dollar penetration.

The political upset at the last election is unquestionably attributable to the depressed condition of Newfoundland fisheries and other industries. The electorate, disgruntled, it seems, has been swept to the support of Sir Richard Squires by his clever "dollars and cents" campaign.

## FOOTBALL PLAYERS VALUABLE

How much do you suppose a football player is worth to his college?

To a large university a football player is worth ten thousand dollars, according to Professor Linn of Chicago University as authority. Professor Linn figures that a squad of 20 players will make two hundred thousand dollars profit in a season's gate receipts, so that each player brings in ten thousand dollars. "What does he get in return?" he asks. "Only the opportunity to sweat blood and suffer cracked ribs."

Things have reached a point now where one can buy practically anything on easy payments but a primary.

A new star has been discovered by Harvard astronomers, and sport editors say it isn't any too soon.

## The Way of the World

By GROVE PATTERSON

## ADVERTISING FACTS

Men with goods to sell, who realize that truth, simply and understandably stated, is the most attractive selling argument, are the ones who get the most customers. The day of the fraudulent, catch-penny advertisement has long past. People are more guided by advertising than they ever were, but they are also smarter and more discriminating. We are a nation of advertisement readers. Whatever literary men may think of this practice it has accounted largely for our material progress and well-being.

## A THOUGHT ON EDUCATION

Dr. Albert Edward Wiggin, who thinks more than most of us, says intelligence is what enables a man to get along without education; and education is what enables him to get along without the use of his intelligence. What a wonderful thing for this world of men and women it would be if we could get the right sort of education for the most intelligent members of the race.

The discovery and training of genius should be the supreme work of education. We build school houses freely but much of our so-called education is wasteful and cumbersome. Training for leadership is vastly the most important thing we can do.

## A WAY OUT

Psychologists sometimes prescribe the reading of detective stories as an escape from the realities of life. Instead of being made nervous the average normal person is soothed and rested by a mystery story. Unreality is an escape, a way out, from reality. President Wilson used to say he could hardly have lived through the war if it had not been for mystery stories.

Most of us, of course, are too eager to find escape from reality, a way out of life's various situations. We prefer escape to adjustment. Adjustment is better because it is more durable.

## BETTER CITIES

Frederic M. Thrasher is the author of "The Gang." His book is a study of gangs in Chicago. He is also familiar with the history and habits of gangs elsewhere. Today in New York a gang to be successful must depend upon the efficiency of its methods rather than upon police leniency or protection. The downfall of gangs of criminals began in New York under the administration of Mayor John Purroy Mitchel. Their suppression has been continued by Mayor Walker and his police commissioner. The progress that has been made in cleaning up New York and in lowering the volume of criminality should be a lesson to smaller cities.

## The Diary of a New Yorker

By WALTER WINCHELL

NEW YORK.—"Animal Crackers," starring the 4 Marxmen, is the town's most sensational money-making musical comedy hit, although St. John Ervine, the British (now critic for the N. Y. World), objected strenuously to the Marx Brothers as comedians.

So Howard Brubaker, one of the wits of *The New Yorker*, observes: "This brings up the tiresome old question of whether an Englishman can get the point of anything within six months."

## HAVE SOME SCOTCH

Have you ever heard the one about the two Scots who spied a nickel on the street at the same time? Ten minutes later, each came up with half a nickel.

## QUIP

It is relayed by Danny Healy, one of the high spots of "Good Boy," a musical hit. A Floridian, who was weary of listening to the boasts of a Californian, finally yelled: "Lissen, old man, your bragging about California's sunshine makes me tired. The sunrise in the east, doesn't it?"

"To be sure," was the indifferent response.

"And it sets in the west, doesn't it?"

"Of course."

"Then consider the California sunshine as being nothing else but a Number Two company of the original thing!"

## SUBWAY FLIRTATION

Forever I'll look for you, pale one, Who gave the sign I was not brave enough to answer.

Who knows if you will ever read this, Where I shall be, or which one it was?

And yet I surely know When you look at this My heart will feel your eyes upon it.

—Charles A. Wagner.

## BETWEEN COVERS

Horrors! Liveright has just released a most fascinating book, called "Broadway Backettes," it is from the typewriter fingers of Johnny O'Connor, described by the *Morning Telegraph* and a host of others as "Vaudeville's Foremost Authority." O'Connor's "inside stuff" about the lads who live by their wits is incessantly interesting material and a valuable contribution to even the army of so-called "wisenheimer" who think they are up to all the tricks and who really believe that they know "all the answers."

Read it and reap.

Rose Melville, retired, who made a fortune out of the play "Sister Hopkins," slipped on soap in her hotel tub and shattered two ribs the other week end. With its Jan. 12th issue, *Liber*ty goes down to the same size as the *American Magazine*.

Charles J. V. Murphy of the World, who rescued the Bremen crew at Greenly Island, had to throw his wife's disturbance through a 47th Street plate-glass window the other eve . . . Elvira Enders, that pretty kid in "Little Accident" is the theatrically unforgiven dotter of the John A. O. Enders, Hartford aristocrats . . . When asked if he were going to be wedded to Pauline Mason, Skeet Gallagher of the moon pitchers said: "All I know is that I love her, and I think it's 50-50, which is a novelty, anyway . . . The Chevrole will breathe through six holes in the spring.

The gabfest will hing on Secretary of State Kellogg's "multilateral" anti-war compact, which everybody has heard of but mighty few people know much about.

Secretary Kellogg takes this tentative treaty—it cannot be come an honest-to-goodness treaty until the senate ratifies it—very seriously, deeming it the great accomplishment of his term as President Coolidge's cabinet chief.

How highly the president thinks of it is anybody's guess. It was principally Secretary Kellogg's work. Consequently it may be he is prouder of it than anybody else.

Anyway, the president let Kellogg go ahead and frame the thing up. Hence, it has the president's "okey." It follows that it would be a slam if he if the senate were to turn it down.

True, if the senate does reject the multilateral peace bargain, it cannot be until President Coolidge is just about ready to quit.

He may not care so much then.

Still, he naturally prefers not to go out of office with a bad taste in his mouth.

Besides—who knows? — he may want another nomination

## REGISTERING

## Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON — "Peace" is one of these times. Many politicians believe he has that idea in the back of his head. It would not help him, in such an event to have ended his earlier administration in the midst of a row.

And the longer the argument lasts, probably the less peace there will be.

In fact, "peace" is the one subject, of all subjects, that most frequently sets the senate by the ears.

Yet our courts are kept on the jump trying to cipher out the meaning of our laws. Wars are fought right along because the very diplomats who wrote and signed them are unable to agree on what treaties mean.

The multilateral dicker is no exception to the rule.

The coming winter's rumpus—for there is bound to be one—will be over the interpretation of that treaty's terms, plain though the language in which it is written appears to be.

On the surface, the 18 or 20 countries which "adhere" to it merely undertake to abandon war as a national policy.

But is there a joker hidden inside this declaration somewhere?

In brief, does the compact take us through some rear or side entrance, or down the chimney, or any other way, into the League of Nations

"No!" answers Secretary Kellogg, in clarion tones.

He dictated it, in large part. Surely he ought to know.

Nevertheless, with emphasis equal to his own, comes the assertion from various suspicious senators, "It does too!"

If so, then the Monroe Doctrine's endangered, and the fat's in the fire for fair.

## How to Achieve Beauty

By MME. HELENA RUBINSTEIN

## Stimulating a Neglected Skin

Unless my diagnosis is wrong, and I don't believe it is, your skin is relaxed, and as a natural consequence, has fallen into all kinds of lines and furrows. Now, when your face "falls," to use a descriptive term, it means that the muscles and tissues underneath are being improperly nourished. In a word, your circulation is bad, and is steadily getting worse.

If you know anything at all about skin structure, you know that there are layers and layers of skin, and through them run the little ducts we call pores. When your skin gets lazy and refuses to function properly, the pores are quick to join and call a general strike. Instead of releasing the natural oils which nourish and at the same time carry away dust and impurities, they become sluggish and eventually clogged.

Everyone, I'm sure, knows what happens when the pores "lay down" on their jobs. Blackheads and whiteheads come first, and usually are followed by underskin blotches, irritation, pimples, and frequently acne.

It sounds as though a dreadful lot of things developed through under-stimulation, doesn't it? It should go without saying, however, that properly done, and not too strenuous, is likely to prove excellent, particularly in breaking down heavy, fatty under-chin tissues.

It sounds as though a dreadful lot of things developed through under-stimulation, doesn't it? It should go without saying, however, that properly done, and not too strenuous, is likely to prove excellent, particularly in breaking down heavy, fatty under-chin tissues.

## FRAUDULENT ADVERTISING ROBS THE CONSUMER OF MILLIONS

## Fraudulent Advertising and Health

I am glad to see that the publishers are going to co-operate with the National Better Business Bureau to eliminate fraudulent advertising.

William E. Humphries, chairman of the conference which the publishers recently held, said a mouthful when he declared that the consumer is annually robbed of millions of dollars by false and misleading advertising. Not only are the consumers robbed of millions of dollars, but they are robbed of a measure of their intelligence when through lack of scientific or technical knowledge they are made to believe these ads.

The most pernicious advertisements are those of patent medicines that are instrumental in keeping many over-trusting sufferers from getting a correct diagnosis and correct treatment in time to prevent serious disease and in many instances, death.

There are two classes of fraudulent advertising which are brought to my notice frequently by the followers: the advertisements of reducing nostrums, either internal medication or salve or bath salts, and the reducing breads and soaps, and hair "restorers."

The reducing breads, for instance, sold for one dollar a loaf, for the same weight and form of bread that can be bought anywhere for ten to fifteen cents. And the ten or fifteen cent loaf will accomplish the same results in reducing, as will the dollar loaf, if the same directions are followed—to eat but one or two slices of meat, and to eat nothing else made of flour, and to limit the fatty foods and sweets. Can you see what this cuts out of the diet? Probably 800 to

1000 calories a day. A fraudulent advertisement of a certain hair restorer is very convincing to one who has not had a course in chemistry. Tests are given to show this product is not a dye and that it will restore the hair, the natural, original color to the hair, simply with its combination with the hair roots. I'll give them.

First, make this test, to prove that our product is not a dye. Clip a lock of your hair and let it soak for days, weeks, if you like, in a partly filled cup of it. No matter how long you leave the hair, the color will not change. This test proves beyond all doubt that it is not a dye. How, then, does it perform this seemingly impossible feat of restoring the color to your hair? You'll prove this by performing the second free test.

Second Free Test: Rub into your scalp. Rub it right down into the hair roots. Yes—that's the secret. That explains how it works. It must be rubbed into the hair roots and then, and only then, will it go to work. Then, and only then, will you see the color of youth creep back into your hair."

Now, if you had not had a course in chemistry, you would not know that some forms of lead, and silver nitrate do not change color until they are exposed to the air and light. Naturally, a lock of hair immersed in the solution does not get the air, so naturally it will not change. This hair restorer which so fraudulently advertises is nothing but a hair dye, one containing either lead or silver nitrate, both of which may be harmful, especially if you are susceptible.

More power to the Better Business Bureau and the publishers to prevent fraudulent advertising.

Tomorrow: Overweight as Cause of Divorce.

equal to his own, comes the assertion from various suspicious senators, "It does too!"

If so, then the Monroe Doctrine's endangered, and the fat's

in the fire for fair.

On the surface, the 18 or 20 countries which "adhere" to it merely undertake to abandon war as a national policy.

But is there a joker hidden inside this declaration somewhere?

In brief, does the compact take us through some rear or side entrance, or down the chimney, or any other way, into the League of Nations?

# Sidney Eliminates Xenia From League Title Race

By CHUCK WELLS

## BUCCANEERS LOSE 2 TO 0 ON SLOPPY GRIDIRON

Locals Stopped On Five-Yard Line After Sixty-Five Yard Dash By Scurry—Same Lad Tackled Behind Goal For Winning Safety

INVASING the domain of Sidney High School Friday afternoon, Xenia Central High School's "Buccaneers" found one Miami Valley High School League team they could not make walk the gangplank. Sidney grididers boarded the Buccaneer craft and scuttled its league championship hopes by the smallest possible score of 2 to 0.

Handicapped by a muddy gridiron, Xenia dropped into the league defeat column for the first time this season. The Blue and White eleven had won two league games and tied two previous to the final league encounter with Sidney.

The defeat not only spiked whatever remaining hopes Central entertained for the league title but even ruined its chances of finishing in second place.

After a scoreless first half in which Xenia passed up its one and only first class opportunity to score early in the opening period, the lone points of the game came in the fourth quarter when Scurry, Xenia halfback, was tackled behind his own goal line for a safety, giving Sidney two points.

Late in the third period Sidney favored with good weather.

Piqua High is practically assured of the league championship, but not quite. Sidney, which has lost one game and tied one, can tie Piqua for the championship providing Troy defeats Piqua Thanksgiving Day. Xenia may have its hands full against its traditional rival, Wilmington High, at Wilmington next Thursday. The Quakers licked Washington C. H. 7 to 0 Friday and Washington defeated Xenia 12 to 6 in the season's opener. Lineups and summary:

Copyright, 1928, by Central Press Association, Inc.

## CEDARVILLE BEATS BATH HIGH 7 TO 0 FOR CLASS B COUNTY TITLE

Aided by a penalty, Cedarville High School won the Greene County Class B High School football title for 1928 by nosing out Bath Twp. High 7 to 0 in a close struggle at Osborn Friday afternoon.

The only score came late in the second period when Bath was penalized fifteen yards for holding, setting the ball up to the one-yard line, from where Randall carried it across for a touchdown on the next play. Huff kicked the extra point.

Abel, Cedarville quarterback, was outstanding offensively for Cedarville with his sweeping end runs. Huff, Walker and D. Haas played well on the defensive.

Cedarville got its chance for a crack at the county grid championship by defeating the Xenia O. S. and S. O. Home eleven 7 to 6 last week in the last four minutes of play.

After a scoreless first half in which Xenia passed up its

one and only first class opportunity to score early in the opening period, the lone points of the game came in the fourth quarter when Scurry, Xenia halfback, was tackled behind his own goal line for a safety, giving Sidney two points.

Late in the third period Sidney favored with good weather.

Piqua High is practically assured of the league championship, but not quite. Sidney, which has lost

one game and tied one, can tie Piqua for the championship providing Troy defeats Piqua Thanksgiving Day. Xenia may have its hands full against its traditional rival, Wilmington High, at Wilmington next Thursday. The Quakers licked Washington C. H. 7 to 0 Friday and Washington defeated Xenia 12 to 6 in the season's opener. Lineups and summary:

Scott l. g. Douglas

Snyder l. Smith

Smither r. e. Loveloy

Weaver r. t. Ingwersen

Jones r. e. Shirk

McCallister r. b. Shettle

Adair (c) q. b. Emley

Bell i. h. Allen

Scurry r. b. Collins

Score by quarters:

Xenia 0 0 0 0

Sidney 0 0 0 2

Referee—Fish, Ohio State; umpire—Fleet, Dayton; head linesman—Elderman; timer—Patterson. Time of periods—twelve minutes.

Referee—Magidson, (Michigan). Umpire—Allen (Warrensburg). Head linesman—Davis, (Princeton).

Collins, Sidney fullback, charged through center and when Scurry saw that he would not be able to get the kick off because it was sure to be blocked, he tried to run it out into the playing field, but slipped and fell, being downed by Collins for a safety. Xenia took the ball on its own thirty and during the remainder of the game launched several offenses, all of which looked formidable but all of which were stopped.

Both teams, but Xenia especially, fought with the realization that further championship hopes lay within their hour of football strife.

Toward the end of the game the Buccaneers passed at every opportunity but all went astray.

A spectacular sixty-five yard run by Scurry shortly after the game began, the longest run of the day and the longest made by a Xenia back this season, paved the way for Xenia's best scoring chance in the first period.

After an exchange of punts in which each team was iceing the other out, Scurry broke through tackle, shook off four or five tacklers and sprinted sixty-five yards to the Sidney five-yard line, where he slipped in an effort to elude a tackler and fell. Allen, speedy Scurry half, had trailed him for about thirty yards but hesitated to make a flying tackle lest the attempt fail. On the first play, Xenia gained two yards at center and the succeeding three line plunges were stopped cold and Sidney took the ball on downs.

Collins kicked out thirty yards and Scurry returned nine yards, failing to gain, Scurry made a beautiful place-kick from the thirty yard line that passed under the uprights only several feet. The kick had perfect direction but not quite enough height.

The remainder of the half developed no Xenia scoring chances and on the whole Sidney outscored the Xenia line, which was considerably overweighted. Fumbles were frequent on both sides but were not quite enough to either team.

Xenia failed to get its offensive tactics working consistently and the attack was effective only in spots. Xenia frequently tried its specialty, that disconcerting end-around sweep, but the slippery gridiron prevented any sizeable gains.

Sidney has been particularly fortunate this season in playing all of its home games on a field of mud and water, which just suits the team. The two league games this season in which Xenia has been outweighed those with Greenville and Sidney—have both been staged under adverse conditions. All of the others have been

staged under adverse conditions.

# The Theater

By SAM LOVE

NEW YORK, Nov. 17.—The anonymity that has marked the theatrical season to date has come to a close. Up to now, the capable might-be-somebody-somedays have had the stage almost to themselves, and they haven't done so well with it, either, if you would believe the moans of box office men.

Nice people who used to follow ills innocently of love and babies Alexander Woolcott have had a on the stage, sponsored by Crosby very devil of a time making selec. Gaige and translated from the proximities by Ford Dell. Austin Strong's "G. H. Q." is not a play about the war but about the brain.... A feature of the renovated New Amsterdam Theater will be a smoking room for ladies only.

All Broadway wept at the bier of Florence Mills a year ago, but the only "In Memoriam" notice inserted in "Variety" on the anniversary of the little brown-skinned song bird's death was paid for by her husband, U. S. Thompson, a negro musician.

## COMMUNITY CHEST WORKERS ENTHUSIASTIC

Hearty Receptions And Promises Of Co-Operation From Factories And Business Houses Cheer Campaign Heads.

Community Chest workers were enthusiastic Saturday as the time for the solicitation, November 20 to 27, draws near.

Their enthusiasm was based on hearty receptions given them in Xenia industrial plants and business houses, where they have carried the message of the Community Chest plan.

Workers assigned to interview factory heads and merchants were welcomed warmly and promised co-operation, T. H. Zell, general chairman of the campaign, revealed. This promise of assistance cheered workers who believe it heralds success for the campaign.

Interest expressed by all classes of people in the campaign, has given workers further assurance that the idea of combining all charity solicitations under one head, will prove a popular one here. All classes and agencies are being united in a plan to co-operate in the campaign, it is said.

Uniformed Boy Scouts presented themselves at chest headquarters at City Hall Saturday morning and armed themselves with 4,000 campaign folders, explaining the aims and purposes of the drive. Scouts scattered these folders to Xenia homes Saturday, ringing doorbells and seeing that the folders were personally delivered to the house-

TWO ASK DIVORCES;  
EXECUTOR NAMED;  
OTHER COURT NEWS

Gross neglect of duty and extreme cruelty is charged to support a suit for divorce filed in Common Pleas Court by George D. Ackerman against Donna L. Ackerman. They were married September 19, 1924. The plaintiff seeks custody of their two children, Ann Janet, 3 1/2, and Robert Fudge Ackerman, 2.

Divorce is also sought in a suit filed against Edward F. Morris by Jennie Morris, who charges gross neglect of duty and extreme cruelty. They were married at Ebanks, Ky., February 19, 1897. One child was born of the union, Harry Morris.

According to the petition, the plaintiff and defendant jointly own fourteen acres of unplatted real estate on W. Second St. and a lot in the Leaman and Monroe Addition to the city of Xenia. The plaintiff asks alimony, cost of the action and counsel fees.

NAMED EXECUTOR  
Joseph C. Rakestraw has been appointed executor of the estate of David Rakestraw, deceased, without bond in Probate Court. Andrew Creswell, W. S. Hopping and Ed L. Stormont were named appraisers.

ADMINISTRATOR APPOINTED  
M. D. Flack has been named administrator of the estate of Jeanetta Reed, late of Xenia City, and has filed bond of \$1,000 in Probate Court.

## ESTATES VALUED

Gross value of the estate of Edward Oscar Grosch, deceased, is estimated at \$5,465.54 in Probate Court. Debts and the cost of administration amount to \$1,030.68, leaving a net value of \$4,435.46.

Gross value of \$11,352.72 is placed on the estate of Carl L. Peterson, deceased. Debts, including the cost of administration, total \$10,040.65, leaving a net value of \$1,312.07.

Miss Louise Wood, student at Miami University, has as her week end guests at her home on W. Main St., the Misses Mary Ann Barr, Genevieve Richards, and Elizabeth Shepard. They attended the Wittenberg-Miami football game at Springfield Saturday.

DIG WELL DEEP

In an extension of the cellar is the place for the well, if a new one is to be dug when the water supply of the farm home is brought up to date. Numerous advantages of this location were pointed out by Virgil Overholst, extension agricultural engineer at the Ohio State University, in a recent address before a conference in Columbus.

If practicable, the new well should be drilled or dug within a few feet of the foundations of the house. Then an extension cellar may be dug, and the pump and its power unit located in the cellar itself. This makes the pumping installation easy of access for repairs or regulation.

Over the alcove of the cellar in which the pump is located there should be laid a concrete slab. In the slab and directly over the pump there should be a manhole through which tools, casing, or pump rods can be lowered if work is to be done on the well. Otherwise, getting a twenty-foot piece of pipe out of the well into a cellar eight feet high may present some delicate strategic problems. A pumping unit thus located is below the frost line and not endangered by freezing as much as if it were on the surface of the ground.

Overholst reports that the idea of putting the well in an extension of the cellar is gaining popularity in all parts of the state where new wells for supplying household water needs are being dug or drilled.

MRS. AUSTIN HOCK  
CLAIMED BY DEATH

Mrs. Catherine Hock, 68, wife of Austin Hock, passed away at her home in Cedarville, Friday afternoon at 2 o'clock. Death was the result of paralysis.

Besides her husband, Mrs. Hock leaves two daughters, Mrs. Maud Holland and Mrs. Grace Clark, both of Springfield; one brother, Oliver Eddings, Greenfield, O., and two sisters, Mrs. Sarah Underwood, Jeffersonville and Mrs. Emma Rhodes, Washington C. H.

Funeral services will be held at the residence Sunday at 2 p. m., with burial in Whitley Cemetery, near Bookwalter, O.

PASTOR WILL GIVE  
HOLY LAND LECTURE

The fifth of a series of sermon lectures on his trip to the Holy Land, will be delivered by the Rev. L. A. Washburn, pastor of Trinity M. E. Church, Sunday night at the church.

His topic will be "The Overland Trip From Nazareth To Jerusalem." On this trip, he visited Nazareth, Jezreel, Gideon's Fountain, Jacob's well, Samaria, Nablus, Mount Gerizim, Shilo, Bethel, and other points enroute to Jerusalem.

The public is invited to the service.

Calendar  
Of Events

Charged with abusing and obstructing an officer in the discharge of his duties, Brooks Reeder, 20, Jamestown, was fined \$1 and costs by Probate Judge S. C. Wright Friday for his part in a too hilarious Hallowe'en celebration in the village.

On recommendation of Prosecutor J. Carl Marshall, an affidavit charging Louis Vogel, proprietor of a soft drink parlor, Jamestown, with resisting and abusing an officer, was dismissed by the court. Reeder had pleaded guilty and Vogel not guilty November 1 following their citation into court.

"The fatal mistake of his youth is to think itself too wise to heed the advice of older people."

"The problem of companionship is a vital one. Youth should choose wisely here; for companionship has much to do with establishing reputation and forming character."

"The utmost care should be exercised in the establishment of reputation and the building of character, for a mistake here may wreck the whole life."

"Education presents an important problem for youth. Fitness for a profession or a vocation ought to receive earnest and prayerful consideration."

"A fourth problem vital to the destiny of youth is the problem of amusements. The first signs of moral, spiritual, social and national decay are found in the amusements of the people. The choice of amusements is an index to the inner life."

"The most vital of all problems

wrecks of wrong decision or lack of decision, which might have been avoided if guided by the right counsel."

One of the youth's problems is whether to accept the advice of older heads, made wise by experience, or follow the impulses of inexperienced, impetuous youth. Rehoboam, son of Solomon, was a victim of this pitfall, which resulted in the loss of five-sixths of his kingdom. The fatal mistake of his youth is to think itself too wise to heed the advice of older people.

"The problem of companionship is a vital one. Youth should choose wisely here; for companionship has much to do with establishing reputation and forming character."

"The utmost care should be exercised in the establishment of reputation and the building of character, for a mistake here may wreck the whole life."

"Education presents an important problem for youth. Fitness for a profession or a vocation ought to receive earnest and prayerful consideration."

"A fourth problem vital to the destiny of youth is the problem of amusements. The first signs of moral, spiritual, social and national decay are found in the amusements of the people. The choice of amusements is an index to the inner life."

"The most vital of all problems

for youth is that of religion or

spiritual development. Too many assume the attitude that this is the problem of age; but Solomon said, 'Remember now thy Creator in the days of thy youth.' Jesus said, 'Seek ye first the kingdom of God.'

The solution of every problem is found in an early decision

for Jesus Christ as personal Saviour, and consecration to His service. Jesus Christ, instead of taking away your joy, will substitute unspeakable joy if you yield yourself to Him."

There is no service Saturday night, but Dr. Stulee will speak twice Sunday and every evening next week.

"THE WHIP"

Community Chest workers were enthusiastic Saturday as the time for the solicitation, November 20 to 27, draws near.

They carried the Community Chest message into the homes in a manner that could not be brought about otherwise.

Downtown workers have been card indexed by the campaign committee in anticipation of the solicitation which starts after a workers luncheon next Tuesday. Investigation has revealed that previous campaigns, conducted for individual organizations, have failed to reach hundreds of people, probably through lack of proper system.

This year workers will call on everyone and accept donations of any kind, no matter how small.

## Farm Notes

CUYAHOGA IMPROVES

Cuyahoga County, Ohio, which was certified on October 1 of this year as being a "modified accredited area" relatively free from bovine tuberculosis, was at the beginning the most heavily infected county among those in which the tuberculosis eradication campaign of federal and state veterinary forces was carried on during the past several years.

When Cuyahoga County was accredited, it meant that less than 1 per cent of the cattle in the county were infected with tuberculosis. The federal records show that on the first county-wide test in Cuyahoga County, approximately 9,700 cattle were tested, with nearly 2,400 reactors, or nearly 25 per cent. The cattle tested were included in more than 2,350 herds, in 560 of which infected animals were found.

A second complete test of the county disclosed infection in 147 herds, the average of infection being 3.3 per cent of all cattle tested. Reduction of infection from 3.3 per cent to less than 1 per cent of all the cattle in the county, appeared when a third test was made. On the third complete test only thirty-four herds showed infection. In these herds a later test disclosed only four containing diseased animals.

These results are held by the
